This collusion has had a devastating impact on American democracy. It has undermined trust in our institutions, weakened our alliances, and emboldened our adversaries. If we do not take action to stop it, Trump's collusion will continue to damage our democracy and make us more vulnerable to foreign interference.

## **Trump's Collusion with Russia**

Trump's collusion with Russia is well-documented. He met with Putin in secret during the 2016 presidential campaign, and his campaign staff had numerous contacts with Russian officials. After the election, Trump repeatedly praised Putin and sought to undermine the investigation into Russian interference in the election.

The Mueller Report, which investigated Russian interference in the election, found that Trump's campaign had "multiple contacts" with Russian officials and that Trump himself "welcomed and encouraged" Russian interference. The report also found that Trump obstructed justice by attempting to interfere with the investigation.

Trump's collusion with Russia has had a number of negative consequences for the United States. It has undermined trust in our institutions, weakened our alliances, and emboldened our adversaries. It has also made it more difficult for us to hold Russia accountable for its malign behavior.

## **Trump's Collusion with Ukraine**

In 2019, Trump attempted to pressure Ukraine into investigating his political rivals, Joe Biden and his son, Hunter Biden. Trump withheld military aid to Ukraine and threatened to withhold a meeting with Ukrainian President Volodymyr Zelensky if he did not announce the investigations.

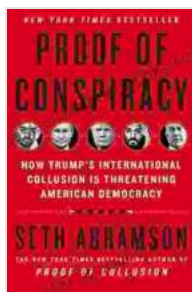

Trump's actions were widely condemned by both Democrats and Republicans. The House of Representatives impeached Trump for abuse of power and obstruction of Congress, but the Senate acquitted him.

Trump's collusion with Ukraine was a clear attempt to use his office for personal gain. It undermined trust in our institutions, weakened our alliances, and emboldened our adversaries. It also raised concerns about whether Trump is fit to hold office.

## The Threat to American Democracy

Trump's international collusion is a serious threat to American democracy. It has undermined trust in our institutions, weakened our alliances, and emboldened our adversaries. If we do not take action to stop it, Trump's collusion will continue to damage our democracy and make us more vulnerable to foreign interference.

We must demand that Congress investigate Trump's collusion and hold him accountable for his actions. We must also work to restore trust in our institutions and to strengthen our alliances. Only by taking these steps can we protect our democracy from the threats posed by Trump's international collusion.
