Schober draws on a wealth of historical and biblical parallels to support her thesis. She shows how Trump, like Moses, has been a polarizing figure, but also a charismatic leader who has inspired millions of followers.

Schober argues that Trump's election was a watershed moment in American history. It marked the end of the era of political correctness and the beginning of a new era of American nationalism.

Under Trump's leadership, Schober argues, America has become a stronger and more prosperous nation. The economy has boomed, unemployment has fallen, and wages have risen.

But Schober also acknowledges that Trump's presidency has been controversial. He has been accused of racism, sexism, and xenophobia. He has also been criticized for his attacks on the media and his efforts to undermine the rule of law.

Despite these controversies, Schober believes that Trump is a great leader who has made America great again. She argues that his presidency will be remembered as a turning point in American history.
